

RAINIER

hospitality collection

Northland Furniture Company

In 1976, a group of local craftsmen in Bend Oregon (an area rich in timber tradition) formed Northland Furniture Company. Their mission was to construct top-quality casegoods for neighboring hotels and resorts. As Northland's reputation for dedicated customer service and unmatched quality products grew, business expanded across the United States and even into Hawaii and Alaska.

Building upon a solid foundation, Northland has flourished and carved its place in the industry as the Northwest's leading producers of hospitality and healthcare furniture.

Perhaps it's that adventurous Northwestern spirit that continuously fuels Northland's passion for producing furnishings of the highest quality, at affordable prices, with on time delivery. And if success is measured by customer satisfaction, Northland Furniture Company is unmatched in its achievement of long-term purchaser loyalty and repeat business.

Today, Northland Furniture Company occupies a 42,000 sq. ft. manufacturing facility with state-of-the-art machinery and finishing systems. The world has come a long way in terms of technology, but Northland never strays from its inheritance of integrity, timeless values, and unrelenting commitment to excellence.

Northland has been a preferred vendor in the industry for over 35 years.

Northland will save you **50%**

Northland's warranty is the most comprehensive available and demonstrates the commitment of quality we make to you. Our casegoods are built to last and our warranty backs up our track record. With the Northland warranty, a transferable warranty that guarantees your furniture will last a minimum of ten years, you won't have to replace your furniture every few years like you will with other manufacturer's products.

We encourage you to shop around and compare warranties. Then give us a call and let us show you how to save both time and dollars.

Rainier collection

Distinctive design meets genuine affordability.

Distinctive

Imagine the smile on your guest's face when they open the door to a room showcased with furnishings from Northland's Rainier collection. As they look around to see what their room has to offer, your guests notice how stylish and thoughtfully appointed it is. From the upholstered headboard to the functional desk/chest/microfridge unit, the room has an easy, natural flow that reminds them of home -- yet a little nicer. Your guests wish they could stay longer and make a mental note to come back soon.

You may want to tell your guests that you support the US economy by purchasing locally-manufactured products. But you don't have to let them know how truly affordable it was.

Durable

Your guests may never look "under the hood" and notice how well your Northland furnishes are made:

Moisture is blocked from entry. Bottoms of spaces designed for refrigerators have high-density LPL (low pressure laminate) coating to prevent moisture damage. And all cases use a moisture barrier composition back panel and have a moisture barrier on the bottom of side panels and toe kicks.

Strongest drawer construction in the industry. Metal reinforcement is added to each drawer to avoid damage from heavy objects (such as phone books). Side mounted glides capture the bottom edge of the drawer, transferring the entire weight of the drawer and contents to the glide.

Solid case construction. Cases are constructed using the 32 millimeter method, with both dowels and screws used to join case components.

Customizable

Have a non-standard size or unique requirement? We can customize your order to suit your specific needs.

Not sure how the furniture will look in your guest rooms? With Northland's unique "model room" service, you can rest assured you've made the best, no-risk furnishing decision possible.

Call today. We have the expertise to answer your every casegoods question.
